

Residents Summit — Exploring Your Future in Atrial Fibrillation

Join your colleagues for a half day course to discuss surgical AFib and left atrial appendage management with an experienced global faculty and take the opportunity to network with your peers.

The program features the most up to date surgical ablation techniques, latest clinical evidence and technology advances as well as providing opportunities to learn more of the Atrial Fibrillation Fellowship programs planned for 2019.

Register to attend on www.AFConnect.eu
